

TRUE OR FALSE MAZES

THE ORIGINAL TRUE OR FALSE MAZES

BY
SCOTT PETERS

Greetings, fellow maze explorer!

Get ready for a journey like no other!

Here's how it all works:

Maze Mastery:

Each page presents you with an engaging maze, but here's the twist - there are two exits, and only one leads to the facts. Can you decipher the truth?

Guess the Truth:

Before you claim victory, make your guess. Which exit do you think conceals the real facts? Put your detective skills to the test!

Reveal the Reality:

Conquer the maze to unveil the ultimate truth. Did you choose the right path? The answer awaits you at the exit.

Get ready to explore, guess, and uncover mind-boggling facts in the merriest way possible. Are you up for the challenge?

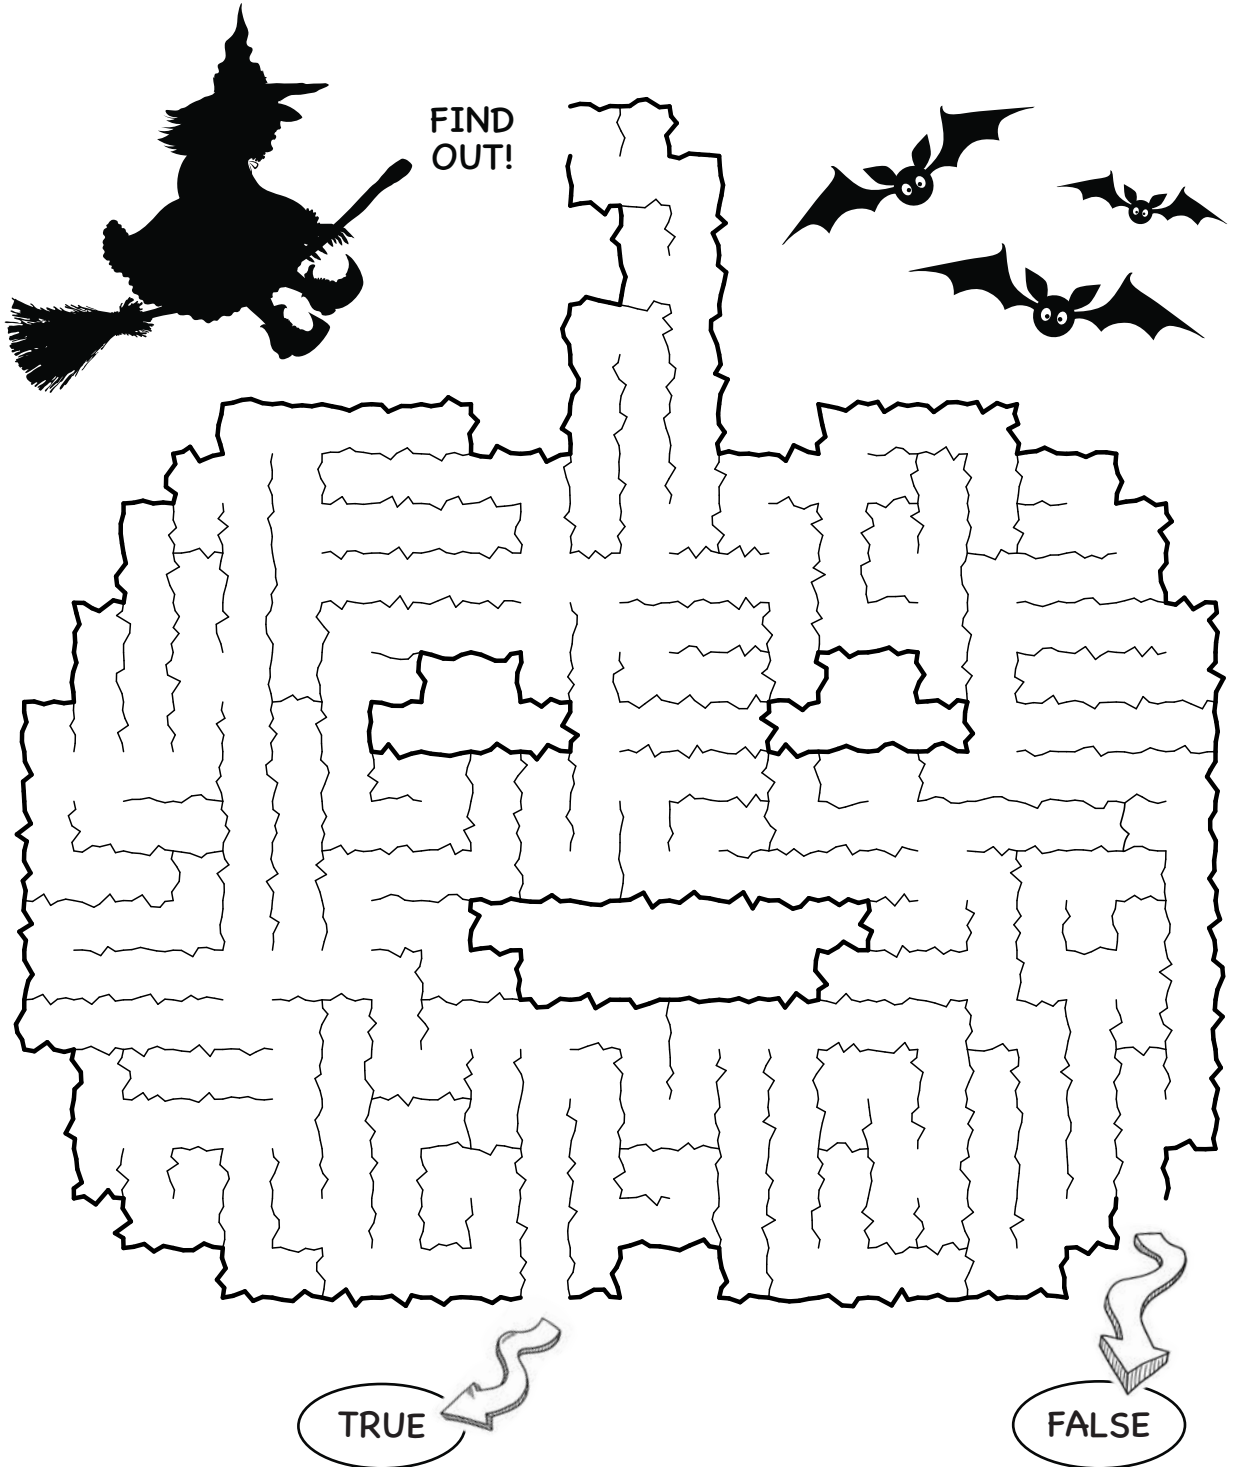

Wishing you an excellent journey,

Scott Peters

FIND OUT!

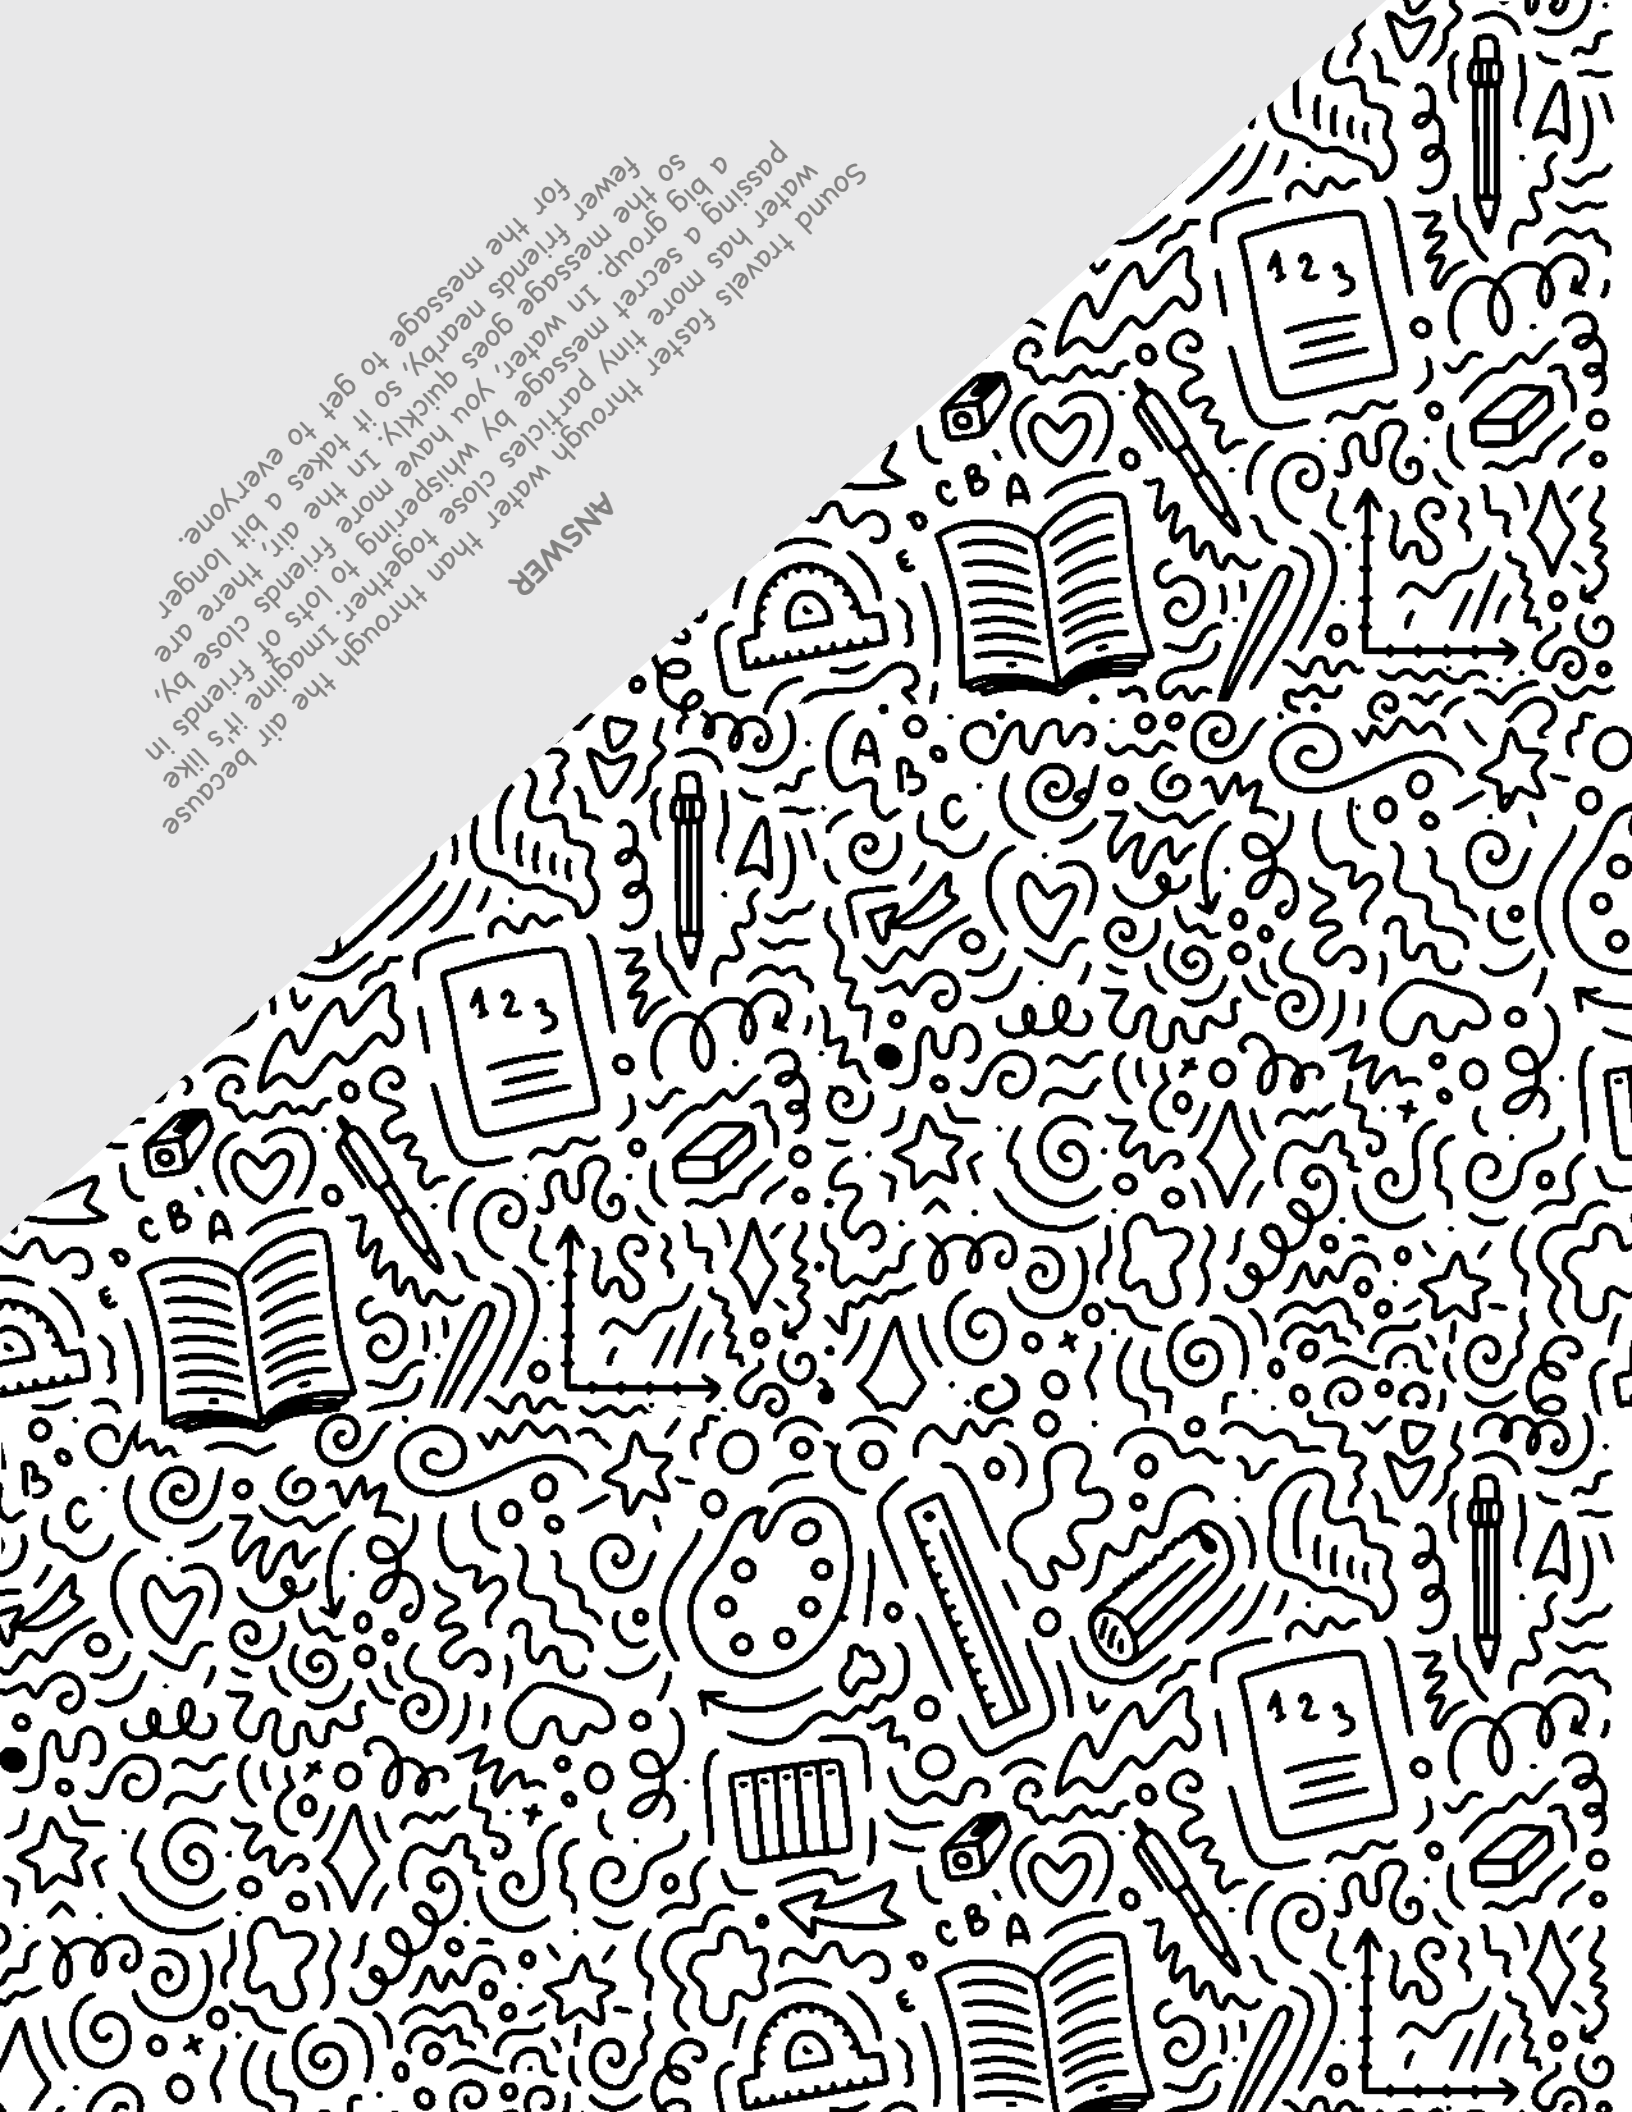

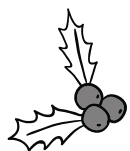

TRUE

FALSE

Sound travels faster through water than through the air because passing a secret message by whispering to lots of friends close by, so the message goes quickly. In the air, there are fewer friends close together. Imagine it's like a big group. In water, you have more friends close by, for the message to get to everyone.
